# 5 Reasons to buy from PEAK®

## 1 Global Technology

### SOURCING THE RIGHT PRODUCT FOR THE RIGHT EQUIPMENT

Peak Lubricants is a wholly independent and Australian owned company so we are not constrained by any technology or supply source. We source the right technology for the right application from our longstanding international suppliers in Europe, Asia, USA and locally in Australia. When customers update to the latest equipment, or expand their operations, PEAK works to identify and deliver the products that best meet their technical, operational and marketing requirements.

## 2 Technical Service and Support

### TECHNICAL EXPERTISE AT YOUR SERVICE

At PEAK we keep up-to-date with the ever increasing requirements of equipment manufacturers and advances in lubrication technology. With 30 years industry experience our expert technical staff are simply a local phone call away. We also offer a complimentary on-site PEAK Lubrication Audit to assist customers to extend their equipment life, rationalise their products or extend their range.

## 3 Excellent Customer Service

### SERVICE THAT RESPONDS TO YOUR NEEDS

PEAK understands the value of good old-fashioned customer service and constantly looks to improve the range of services available to our customers. We have been listening to our customers for 30 years and are committed to providing fast, flexible and tailored solutions. Whether it is sourcing a new product, organising an emergency pickup, ensuring next day delivery, providing expert local technical support, or flexible administration options our customer service is unbeatable.

## 4 Real People

### A FRIENDLY LOCAL PERSON AT THE END OF THE LINE

Our customers simply tell us they enjoy dealing with PEAK. Nothing beats a friendly local voice at the end of the line. Right from the beginning PEAK has treated it's customers as real people. That's why we have many loyal customers who have grown with us. We know how we like to be treated and valued by our suppliers, and we simply do the same for our customers.

## 5 Value for Money

### PREMIUM QUALITY AT COMPETITIVE PRICES

As a local business PEAK understands the pressure on our customers to provide quality products at competitive prices. As an independent PEAK is able to source products that meet international specification but without the international price premium or royalty. We further create value by analysing and integrating our product range in line with our customers' operations and identify cost savings through production rationalisation, just-in-time supply, improved storage and handling.
