

PRODUCT NAME
POWER STEERING FLUID F.424

DESCRIPTION & APPLICATIONS
Power Steering Fluid F.424 is a hydraulic / transmission based oil that will provide superior friction and anti wear performance in certain late model vehicles. It is suitable for use in late model Fords where a '424' type fluid is specified.

FEATURES & BENEFITS
Power Steering Fluid F.424 is formulated with anti foam additives and corrosion and oxidation inhibitors. It is compatible with seal materials and will protect metal components used in power steering systems. Power Steering Fluid F.424 can be used to top up power steering systems where '424' type fluids are specified and is suitable to be used for year round performance.

TYPICAL CHARACTERISTICS		
Density @ 15° C, kg/L	ASTM D1298	0.874 kg/L
Viscosity cSt @ 40° C	ASTM D445	65 cSt
Viscosity cSt @ 100° C	ASTM D445	9.9 cSt
Viscosity Index	ASTM D2270	137
Pour Point °C	ASTM D97	-35 °C
Flash Point ° (COC)	ASTM D92	190 °C

HEALTH / SAFETY & ENVIRONMENT
Health, safety and environmental information is provided on the Material Safety Data Sheet for this product. Users should consult the MSDS, follow the precautions outlined and comply with all laws and regulations concerning its use and disposal.

Typical characteristics are only a guide to industry and are not necessarily manufacturing or marketing specifications, and do not constitute any legal liability. Information is correct at time of printing
