

PRODUCT NAME
NEAT CUT H

DESCRIPTION & APPLICATIONS
PEAK NEAT CUT H is a highly refined low viscosity, inactive type transparent cutting oil recommended for repetition work on high speed single head automatic lathes. PEAK NEAT CUT H can also serve both as a machine lubricant and as a cutting oil.

FEATURES & BENEFITS
PEAK NEAT CUT H easily penetrates the cutting zone resulting in excellent work finish. PEAK NEAT CUT H's excellent lubricity and relatively low viscosity allows good tool bite which is important in short term contact periods typical of small automatic cutting cycles. PEAK NEAT CUT H is recommended for machining non-ferrous metals such as aluminium, brass, and low tensile bronze. PEAK NEAT CUT H does not stain non-ferrous metals.

PROPERTIES	
Grade ISO	32
Viscosity @ 40 C cSt	29
Flash Point	>190°C
Colour	Clear Amber

HEALTH / SAFETY & ENVIRONMENT
Health, safety and environmental information is provided on the Material Safety Data Sheet for this product. Users should consult the MSDS, follow the precautions outlined and comply with all laws and regulations concerning its use and disposal.
