

# PEAK & ELF Customer Story

Manuel Automatics has been in operation for the past 37 years servicing European marques - Volkswagen, Audi, Mercedes-Benz, BMW, Nissan, Porsche, Jaguar, Renault & Volvo from his workshop in Thomastown. Manuel has built the reputation as one of the leading European Transmission and Service specialists in Melbourne.

In 2010 Manuel selected Elf as his premium oil of choice for his vehicle servicing requirements. Manuel with his years of business experience and his understanding of the power of branding and international quality, presents the Elf range merchandised in 5L packs. This allows customers to see the product used and provides confidence that only the right European performance oil is being used in their prized vehicles. Manuel uses the Elfmatic G3 transmission oil in 205l drums for his French transmission requirements.

Manuel has proudly showed his support for Elf with branding both outside and inside his workshop. Elf and PEAK Lubricants is proud to be associated with Manuel Automatics.
