

## PRODUCT NAME

TORQUE ENGINE TUNE UP

## DESCRIPTION & APPLICATIONS

Engine Tune-Up is a high performance product used to dissolve gums and hard oil which accumulates in hydraulic lifters and lash adjusters, restoring full operation and elimination rattling noises emanation from same.

- Maintains operation of P.C.V. and pollution control systems
- Maintains internal cleanliness of engine
- Assists to reduce engine smoking and excess oil consumption
- Use at 250 mL per crankcase as a supplement or in combination with new oil at service time
- Can be left in engine for complete service interval to gently clean the engine

## FEATURES & BENEFITS

### Use Engine Tune-Up for:

- Engines with noisy lifters, lash adjusters and cam followers, in both late and early model engines
- Engines using variable cam timing or similar systems
- Extending engine life and maintaining engine cleanliness via reduction of oil system deposits, which if left unchecked will lower engine of power and efficiency
- Providing stabilized compression on a long term basis.

## HEALTH / SAFETY & ENVIRONMENT

Health, safety and environmental information is provided on the Material Safety Data Sheet for this product. Users should consult the MSDS, follow the precautions outlined and comply with all laws and regulations concerning its use and disposal.

## TYPICAL CHARACTERISTICS

Colour	Amber
Flash Point	>65C
Physical State	Liquid
Density	0.877 kg/L
Solubility	Insoluble in water
PH	Not applicable
Viscosity	Not known

Typical characteristics are only a guide to industry and are not necessarily manufacturing or marketing specifications, and do not constitute any legal liability. Information is correct at time of printing.
